Growing chefs is a great grassroots organization that is teaching kids in inner city school how to grow their own food and eat healthy meals

Farm to School BC is also doing good work to connect farmers directly to schools to ensure healthy food for kids.

Food Mesh.ca is also a food exchange network for food recovery

fraser valley gleaners for addressing food waste at the farm level

Recording will be available on the Beth Israel website www.bethisrael.ca or contact me at nicky@bethisrael.ca

Villagevancouver.ca - also helps connect residents to local gardens. JFS has a couple of local gardens that have offered their plots to us to grow and harvest - hopefully we can grow this program now that we have a place to store the harvest
